A New Computing Book Series From ACM
ACM Books

Published by ACM in conjunction with Morgan & Claypool Publishers, ACM Books is a new series of high quality, advanced level books for the computer science community.

Covering All Of Computing

ACM and Morgan & Claypool Publishers present ACM Books: an all-new series of research monographs for the computing community. Inspired by the need for high-quality computer science publishing at the graduate, faculty and professional levels, ACM Books is affordable, current, and comprehensive in scope. ACM Books collections are available under an ownership model with archival rights included. We invite you to learn more about this exciting new program.

For more information, please visit books.acm.org

Subjects
Algorithms & Complexity
Bioinformatics
Cloud Computing
Computer Graphics
Data Management
History of Computing
Human-Centered Computing
Information Retrieval & Digital Libraries
Machine Learning & Data Mining
Mobile Computing
Multimedia Systems
Networking & Communications
Parallel Computing
Programming Languages
Security & Privacy
Social Computing
Software Engineering
Spatial & Geographic Information Systems
Web Technology & Science

with additional subjects to follow
ACM Books will fill a unique space in the publishing domain. The series will include books from across the entire spectrum of computer science subject matter. The series will initially focus on four kinds of books: graduate level textbooks, deep research monographs that provide an overview of established and emerging fields, practitioner level professional books, and books devoted to the history and social impact of computing.

Readers can trust ACM Books to reflect ACM’s ongoing commitment to:

• High-quality research
• Affordable pricing
• Long-term preservation of content
• Digital-first publication
COLLECTION I TITLES (25 Titles)

Published Titles

Smarter Than Their Machines: Oral Histories Of Pioneers In Interactive Computing
By John Cullinane
ISBN: 978-1-62705-553-6
DOI: 10.1145/2663015

Embracing Interference In Wireless Systems
By Shyamnath Gollakota
ISBN: 978-1-62705-474-4
DOI: 10.1145/2611390

A Framework For Scientific Discovery Through Video Games
By Seth Cooper
ISBN: 978-1-62705-504-8
DOI: 10.1145/2625848

Trust Extension As A Mechanism For Secure Code Execution On Commodity Computers
By Bryan Parno
DOI: 10.1145/2611399

Candidate Multilinear Maps
By Sanjam Garg
ISBN: 978-1-97000-105-1
DOI: 10.1145/2714451

Forthcoming Titles in 2015 & 2016

Algorithms And Methods In Structural Bioinformatics
By Nurit Haspel

Database Replication
By Bettina Kemme
ISBN: 978-1-97000-129-7

Edmund Berkeley and the Social Responsibility of Computer Professionals
By Bernadette Longo

Empirical Software Engineering
By Dag Sjøberg
ISBN: 978-1-97000-121-1

Foundations Of Spatial Informatics
By Mike Worboys
ISBN: 978-1-97000-133-4

Perceptual And Interaction Design For Virtual Reality
By Jason Jerald
ISBN: 978-1-97000-113-6

Software Evolution: Lessons Learned From Software History
By Kim Tracy

Tangible And Embodied Interaction
By Brygg Ullmer, Ali Mazalek, Orit Shaer, and Caroline Hummels
ISBN: 978-1-97000-141-9

Text Information Systems: An Introduction To Information Retrieval And Text Mining
By ChengXiang Zhai and Sean Massung
ISBN: 978-1-97000-117-4

Verified Functional Programming In Agda
By Aaron Stump

Plus additional titles for Collection I under development.
ACM Books pricing is based on an ownership model that provides archival rights for customers purchasing the entire collection of ACM Books, with the ability to locally host individual titles for internal use at the discretion of the purchasing institution.

Collection I, consisting of 25 books, will cover a wide range of topics in computer science. When an institution purchases Collection I, access will be turned on in the ACM Digital Library for all books published as of that date in Collection I. As new titles are published inside the ACM Digital Library, those titles will be accessible to all users within the institution’s IP authenticated domain.

ACM Books pricing is provided in US Dollars and is based on several factors:

- Institution Type: Academic, Corporate or Government
- ACM Digital Library Tier (for Academic)
- Single or multi-site access
- Consortium discount (if applicable)
- Pre-publication discount (if applicable)

**Academic Institutions**

Tier 1 = $1,500  Tier 2 = $2,500  Tier 3 = $4,000

* To determine which tier your institution is classified as by ACM, please contact ACM at acmbooks-info@acm.org

**Government Institutions**

Government List Price = $2,500 per site with discounts available for multi-site purchases

**Corporations**

Tier 1 = $2,500 per site with discounts available for multi-site purchases

Tier 2 = $3,500 per site with discounts available for multi-site purchases

Tier 3 = $4,500 per site with discounts available for multi-site purchases

* Corporate tiering is based on annual revenues for the purchasing corporation. Tier 1 is for all corporations with $0-$99m in annual revenues. Tier 2 is for all corporations with $100m-$500m in annual revenues. Tier 3 is for all corporations with over $500m in annual revenues.
