Our Mission:
To... provide reliable, peer-reviewed, archival and up-dated information in the field for educational and professional communities
Our clients are in three primary sectors:

- Academia – students and faculty in the sciences
- Government research and engineering
- Corporate research and engineering

Publications

Publications are focused in three areas of science:

- Engineering Sciences
- Biomedical Sciences
- Nanotechnology
Engineering Sciences Publications

14 Journals

- Atomization and Sprays
- Computational Thermal Sciences
- Clean Air: International Journal on Energy for a Clean Environment
- Heat Transfer Research
- High Temperature Material Processes (An International Quarterly of High-Technology Plasma Processes)
- International Journal for Multiscale Computational Engineering
- International Journal of Fluid Mechanics Research
- Journal of Automation and Information Sciences
- Journal of Enhanced Heat Transfer
- Journal of Flow Visualization and Image Processing
- Journal of Porous Media
- Journal of Women and Minorities in Science Engineering
- Multiphase Science and Technology
- Telecommunications and Radio Engineering
Engineering Sciences Publications

Online Reference Works

- Heat Exchanger Design Handbook
- Catalog of Worldwide Nuclear Testing
- Annals of the Assembly for International Heat Transfer Conference 13
- Annual Reviews of Heat Transfer (14 volumes)
- ICHMT Digital Library
- Worldwide Directory of Specialists in Thermal & Fluids Engineering
- eBooks Series in Thermal and Fluids Physics and Engineering (12 volumes)

eResource in Thermal & Fluids Science and Engineering

Please search the latest and leading academic, research, and applied work in the field of thermal and fluids engineering. The selected and peer-reviewed data are categorized by the area of interest and are available for simultaneous access for unlimited users worldwide. Retrievable electronic files of data and information from the most reliable sources in the given field allow subscribers quick and convenient access to a wide selection of scientific and engineering research from Begell House journals and reference works.
