Build your own Australian timeline

Choose an event or person and set in context with other contemporaneous events - that you select - from around the world OR in Australia.

E.g. When was the Sydney Harbour Bridge opened and what else was happening in Australia then?

1) Simply follow the trail:

Home > Browse topics > History > The Hutchinson Chronology of World History
- or for an AUSTRALIAN Timeline

Home > Browse topics > History > The Macquarie Encyclopedia of Australian Events

2) Type in Sydney Harbour Bridge and click the Search button

3) Click on the Chronology icon and the table below will appear showing other road and transport developments in Australia.
Now you can start to build up your timeline...

You can easily move back and forward in time. Use the Scroll Table tools on the left of the screen above your timeline.

Click on the Add a column button and choose from over 70 world topics or 65 Australia topics to set your event in context.

Create your own timeline with all or any of these world topics:

- Date
- Administration
- Agriculture
- Anxiety
- Animal husbandry
- Anthropology
- Archaeology
- Architecture
- Art
- Astronomy
- Banking and finance
- Biography
- Botany
- Business and economics
- Chemistry
- Cinema and film
- Climate and weather
- Clothing and fashion
- Communication
- Companies and organisations
- Consumer products
- Crime and punishment
- Earth sciences
- Ecology
- Education
- Energy
- Exploration
- Food and drink
- Geology
- Health and medicine
- Historical studies
- Human rights
- Industry
- Law and government
- Literature and language
- Magic and the occult
- Materials
- Mathematics
- Media and communication
- Motor vehicles
