MEDIA RELEASE

JULIA GILLARD M.P.

Shadow Minister for Health

ABBOTT OUT OF TOUCH
WITH HIS OWN DEPARTMENT

The Minister for Health today has revealed the true extent of his own incompetence by disagreeing with a major submission written by his own Department of Health and Ageing to the Productivity Commission inquiry into the medical workforce shortage.

The claim made by Tony Abbott that he has not laid eyes on his Departments submission must make Australians wonder what the Minister does for a job. How is it possible for a Department to send a submission to a major inquiry without the Minister reading it, understanding it and authorising it?

Not only has Tony Abbott not bothered to read the submission which was released mid August, he has also made media statements in complete contradiction with his own Departments recommendations.
