Mergent Online™

This state-of-the-art product provides Internet-based access to the most detailed, accurate and comprehensive global company database available, with the latest in features and functions. The following data modules are available on Mergent Online:

- A global database on over 35,000 U.S. and non-U.S. companies (active and inactive) from more companies from more countries than any other international database. Company coverage includes detailed history, business description, property, capital stock, long-term debt, income statement, balance sheet and cash flow statements.
- One of the largest global annual reports collection, with more than 170,000 images from U.S. and non-U.S. listed companies, including an enormous archive of reports from past years.

Mergent WebReports™

Mergent WebReports is a comprehensive library of documents such as annual reports, prospectuses, industry reports and other company related documents in pdf image format. Access more than 35,000 companies in over 100 countries with full coverage in Australia for all your business and financial needs.

WebReports also includes Company Snapshot which features a quick overview of each company in the database and includes address details, contact phone and fax numbers, ticker symbol and company website URL, where available.

This incomparable resource incorporates the latest search technology to scan documents by company name, country, report type, year of reports and industry sector in which the company operates. Its flexible form also allows users to select portions of reports most relevant to them. Mergent WebReports is available in regional or individual country packages for individual, corporate and academic library subscriptions.

Mergent Industry Reports™

Mergent Industry Reports is the latest research product offered by Mergent, Inc., the preferred source for global business and financial information. Mergent Industry Reports provide in depth analysis of key industries in North America, Europe, and Asia/Pacific. Timely and comprehensive, these reports describe the market environment, industry landscape and key market trends for companies, industries, countries and regions.

Mergent’s experienced research analysts draw on financial and industry insight and strong research and analytical skills to examine, analyze and discuss a wide range of industry sectors. Whether you’re interested in gaining insight into an industry or researching the performance of leading companies in a particular sector, Mergent Industry Reports are a comprehensive research tool.
