The Fixed Income Securities Database (FISD) for academia is considered the most comprehensive collection of publicly-offered U.S. Corporate bond data. FISD covers over 100,000 corporate, U.S. Agency, U.S. Treasury and supranational debt securities and includes more than 400 fields or data items. FISD provides details on debt issues and the issuers, as well as transactions by insurance companies. It is used to research market trends, deal structures, issuer capital structures and other areas of fixed income debt research.

**Issuer specific information includes**
- Industry codes, S.I.C. codes and N.A.I.C.S. codes.
- Ticker and exchange listings.
- Issuer names and parent relationships.
- Bankruptcy and default detail.

**Issue specific data includes**
- Full call, put and sinking fund schedules and call frequency codes.
- Structured security flags and detailed information.
- Floating rate formulas, current rates and coupon schedules.
- Fitch IBCA, Moody’s, S&P and Duff & Phelps credit ratings.
- U.S. Treasury auction information.
- Convertible debt information.
- Underwriters, trustees and fiscal agents.
- Unit deals and warrant information.

**Transaction information includes**
- All bond acquisitions reported since 1994 by insurance companies
- All bond disposals (sales, redemptions) since 1995 by insurance companies

The entire collection is based upon two sources: the FISD Academic Database, provided by Mergent, Inc., and a record of bond transactions by insurance companies, also provided by Mergent.
