What is the Naxos Music Library?

The Naxos Music Library (NML) is an online streaming resource allowing the user to access the entire Naxos catalogue. An invaluable resource for teachers and students alike, the NML includes educational material within a brand new study area. The NML provides versatility and freedom of choice as one of the leading online music libraries in the world.

NML Content

- Classical Orchestral, Chamber, Instrumental, Concerto, Symphonic, Opera, Ballet, Choral and Light Music.
- Jazz and Nostalgia, Contemporary Jazz, Traditional Jazz, Historical Jazz Recordings, Blues, Musicals, Jazz Songs, Gospel and Show Tunes.
- Includes the whole back catalogue of all Naxos recordings, as well as over 40 other labels including ABC Classics, Chandos, BIS and Celestial Harmonies.

Why the Naxos Music Library?

Value for money

For 20 years Naxos has stood for a combination of first-class performances and recorded sound at an affordable price. The Naxos Music Library offers the same outstanding value for money proposition.

Online content saves time, money and space

With the Naxos Music Library, no lost or damaged CDs need ever to be replaced. No more worries about lack of shelf space. Multiple copies are no longer required.

On-site and remote access

Students, teaching staff and other users can log in and listen in the library, lecture room, study, office or at home.

Vast range of content

Teaching staff can plan their courses around a wide range of music. The library includes not only practically all standard repertoire, but also a wide range of rare repertoire not available from other sources.

Multiple, simultaneous access

Multiple users can simultaneously listen to the same content or different content at the same time. The Naxos Music Library is available around the clock for unlimited simultaneous access.

In-copyright musical works

Naxos has valid licences with all international public performance societies allowing Naxos to stream in-copyright musical works.

Flexible fee structure

The fee structure is based on the number of simultaneous users, with a minimum of only five users for universities, music colleges, public libraries and schools. Registered users can be both individuals and workstations, on and off campus / site.

Simple set up

Set-up is simple and easy. For educational institutions, Naxos will create a dedicated URL, and flexible access control with a combination of IP address check and Referring URL. Separate usernames and passwords will also be available for professors / teaching staff and library administrators. Password access for students is also an option.

Naxos, a name you can trust

Naxos has been a leader in classical music since 1987. You can therefore be confident that Naxos will be your partner in digital classical music for many years to come.

Features and Functions

Easy-to-use yet sophisticated search engines

The Browse / Search Engine allows you to browse the entire library in alphabetical order by composer, title or artist. The Advanced Search Engine allows searching the library by genre, composer, country, period, year of composition, featured instrument, music category, name of artist / performing group, label, mood or a combination of these criteria.

Australian content

Over 25 Australian composers are represented and over 200 titles are available from the ABC Classics catalogue.

New content

New content is added continuously and can be searched separately. Naxos guarantee a minimum of 300 new releases each year.

Sound quality

Our music is streamed in WMA 64kbps (standard quality). A premium WMA 128kbps service is also available.

Music notes

Most recordings come with scholarly notes which have been written by respected musicologists. All notes can be accessed and read while listening.

Playlist function

This function allows the creation of special playlists which can be made available and accessible to all or groups of users.

Static URL to track, repertoire, CD and playlist

Static URL can be used to deep link directly to particular tracks of music and be placed in teaching resources.

Live usage statistics

Live usage statistics are available to librarians logging in with Administrator Usernames and Passwords.

Set login duration / time-outs

Librarians can set the maximum time for each login.

CD covers and complete track lists

Both Browse / Search and Advanced Search will display the original CD covers and complete track lists.
