

# ORCID in Australia

Melroy Almeida | Australian Access Federation

<https://orcid.org/0000-0003-3522-7849>

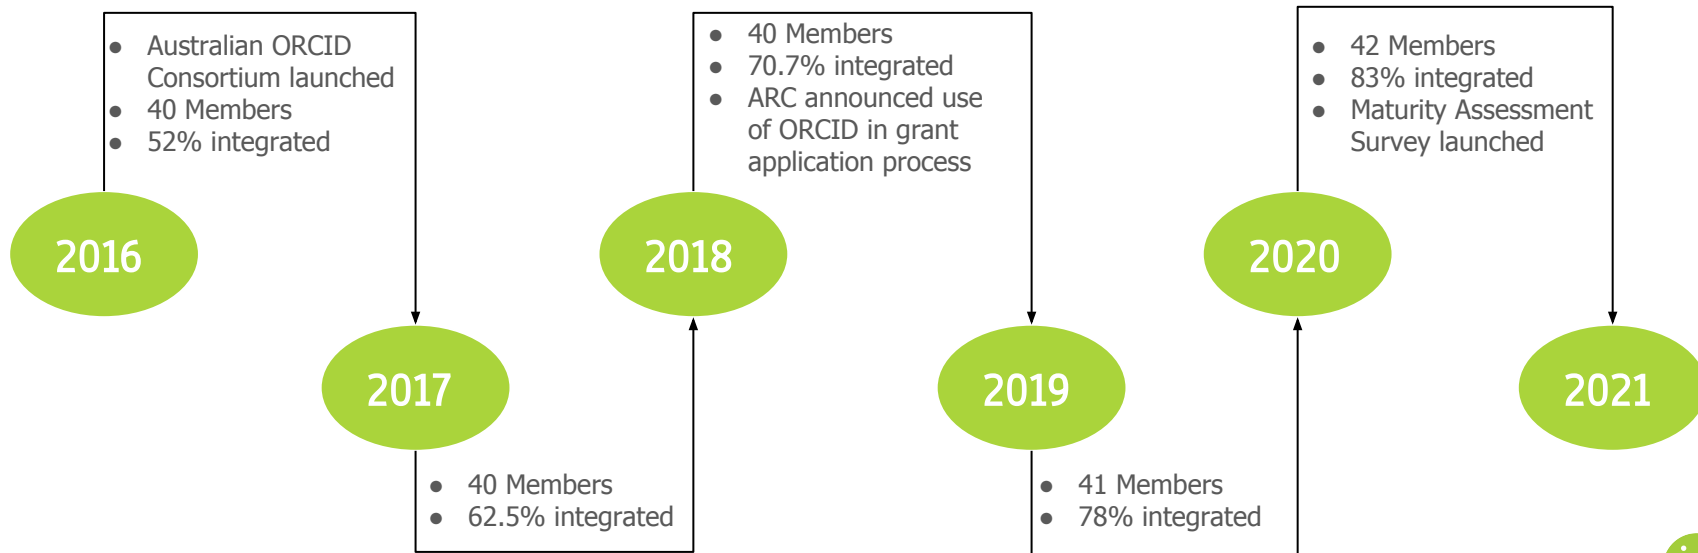

# ACKNOWLEDGEMENT OF TRADITIONAL OWNERS

We acknowledge the people who are the traditional custodians of the land, pay respect to the Elders, past and present, and extend that respect to other Aboriginal and Torres Strait Islander peoples.

# ORCID's vision

...is a world where all who participate in research, scholarship, and innovation are uniquely identified and connected to their contributions across disciplines, borders, and time.

# Australian ORCID Consortium

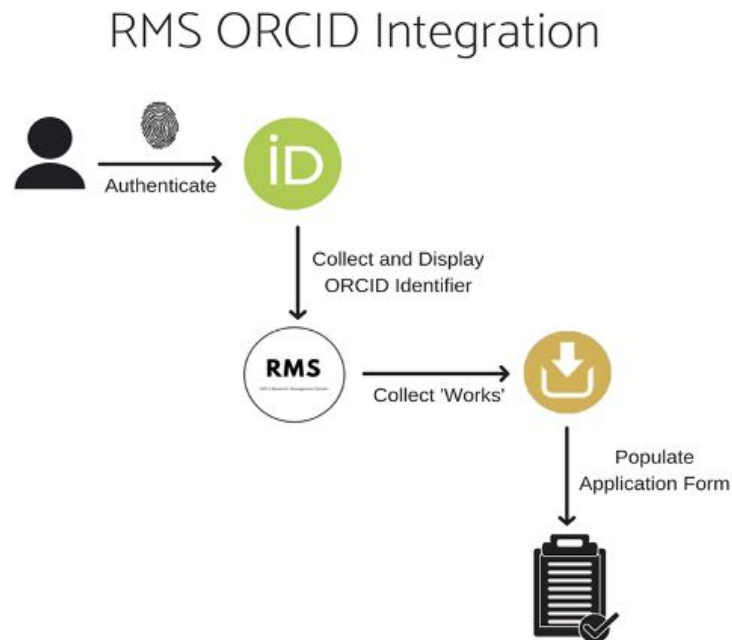

# ORCID in funding systems

In 2018, ARC integrated ORCID with their Research Management System (RMS).

Focus:

- Reduce administrative burden
- Implement efficient processes to automate and streamline data collection
- Use clean and reliable data from authoritative sources
- Reuse data where possible.

# Benefits of ORCID in funding systems

Prof. Joe Shapter, PVC,  
Research Infrastructure,  
University of Queensland

“

What is critical is that my ARC record is getting updated, which is a mountainous saving of work for me and helps with keeping my CV easily up-to-date.

# ORCID is making life easier

“

It takes no

effort at all - It

just happens

ORCID record is set up so that it automatically populates with research outputs as they're released

*“It's not only that my ORCID record is getting updated, but some of the other things that use my ORCID record are also getting updated, for example, an internal publication list at UQ”.*

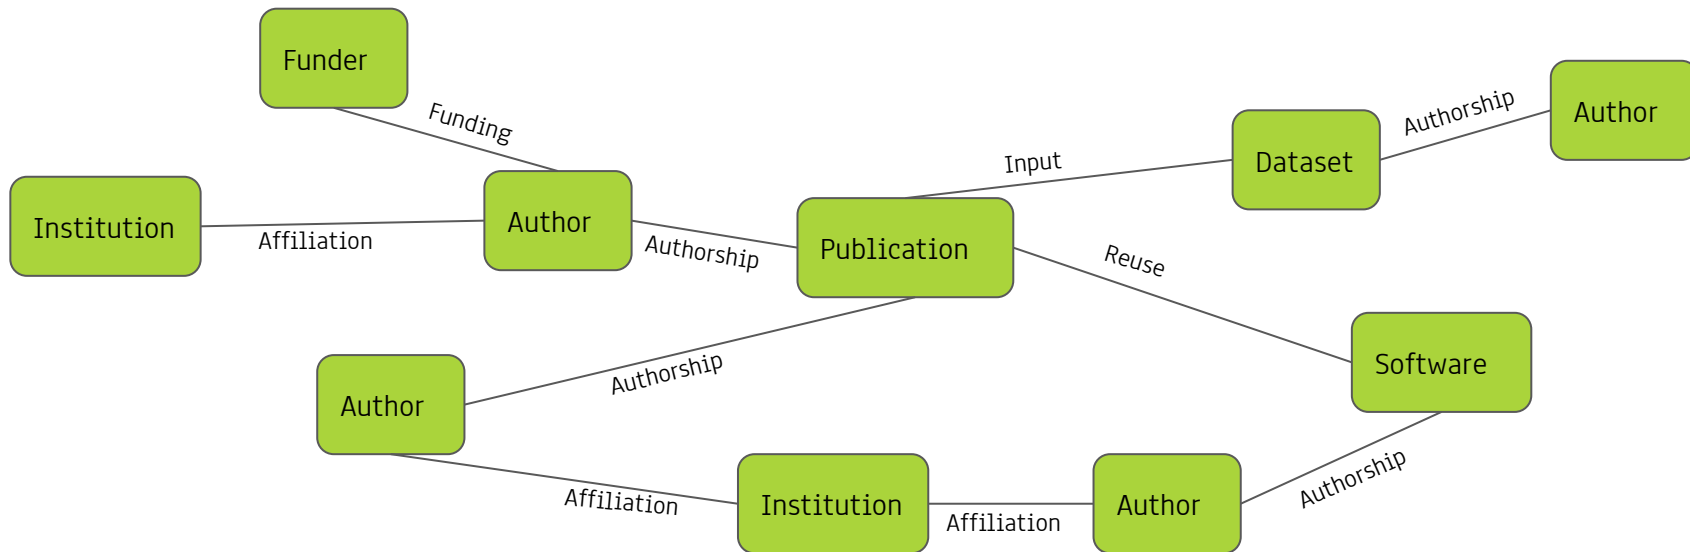

# ORCID is making life easier

*It's all about populate and re-use. If I want to put in an ARC grant now and include all of my research track record, it's sitting there and ready to reuse and is being continually updated. This saved me 3-4 days per grant application - the difference in workload was staggering!*

# Real world applications of PIDs

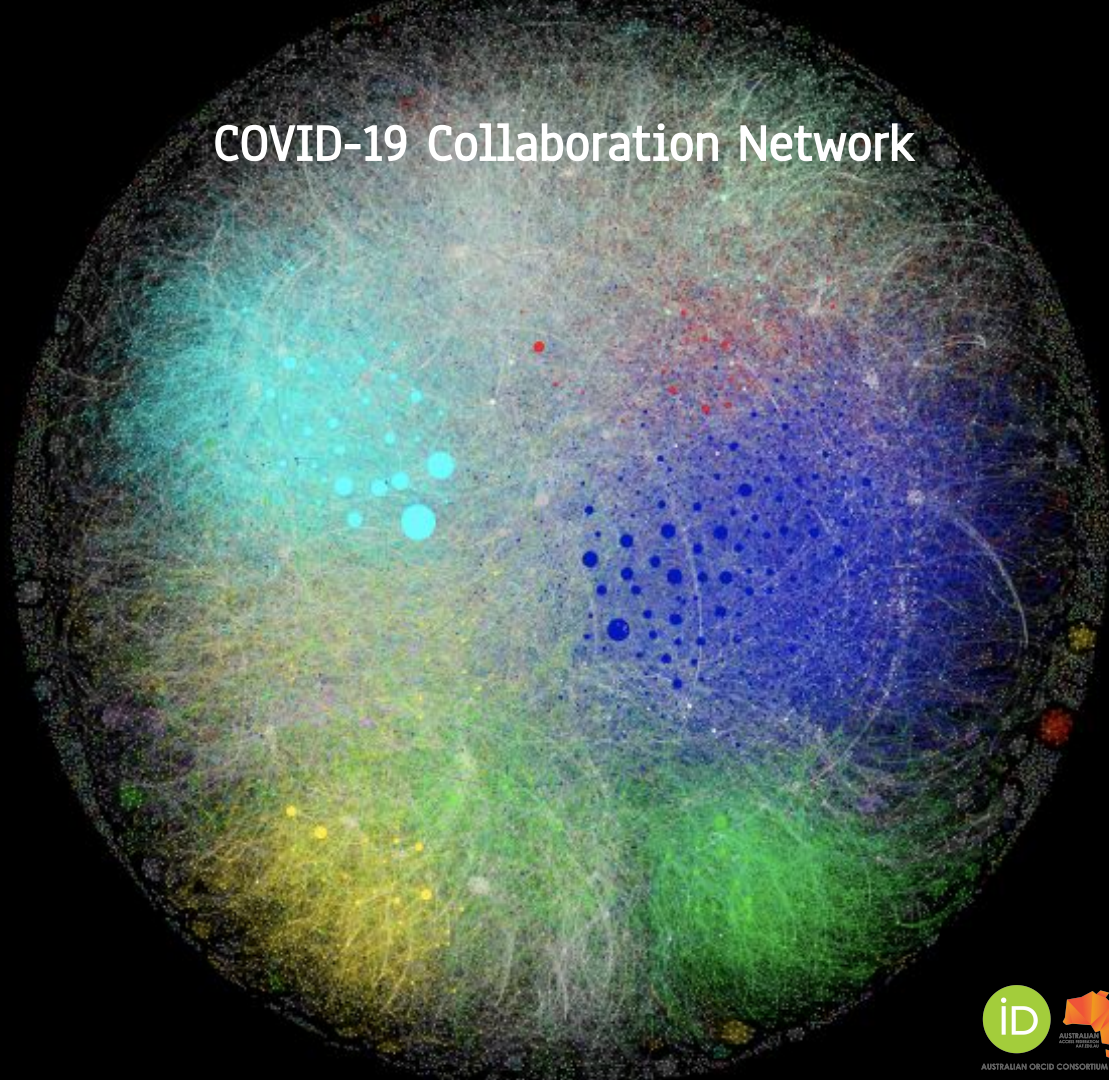

Persistent Identifiers (PIDs) facilitate interconnectivity between different elements in the research lifecycle.

Connected PIDs form a graph

# Real world application of PIDs

COVID-19 Collaboration Network

# Thank you
