

CAUL Content Procurement Services

Terms of Reference – Content Procurement Committee

V4 1 October 2020

PURPOSE

The Content Procurement Committee is a strategic advisory committee overseeing the CAUL Content Procurement Services and governing the CAUL Consortium on behalf of the CAUL Board. The CAUL Consortium comprises a number of member institutions who pay an annual CAUL Consortium Levy. There are three categories of CAUL Consortium Members: CAUL Members, CONZUL Members and Other Members (non-academic and outside ANZ). The latter category do not have representation on the Content Procurement Committee.

The efforts of the CAUL Consortium are focused on improved value for money through economies of scale and greater leverage in the digital content marketplace, enabling influence on the development of products and platforms and the transformation of access to digital scholarly content. The Consortium negotiates agreements aligned with strategic initiatives on behalf of member institutions to secure optimal acquisition of digital content, using the best possible pricing models, with the most favourable terms for members, and to deliver significant benefits of cost avoidance, thus ultimately saving Consortium Members both time and money.

Although the CAUL Consortium is primarily the vehicle through which the CAUL Content Procurement Services operates, the Consortium may also be used as appropriate, from time to time, for the procurement of non-content services/products. This includes: products providing access to content or analysis of content; any products/services that meet particular needs of Consortium members and for which consortial procurement will produce a better outcome for members. The Consortium also facilitates financial support for services that provide infrastructure to Consortium Members for open access to scholarly content.
