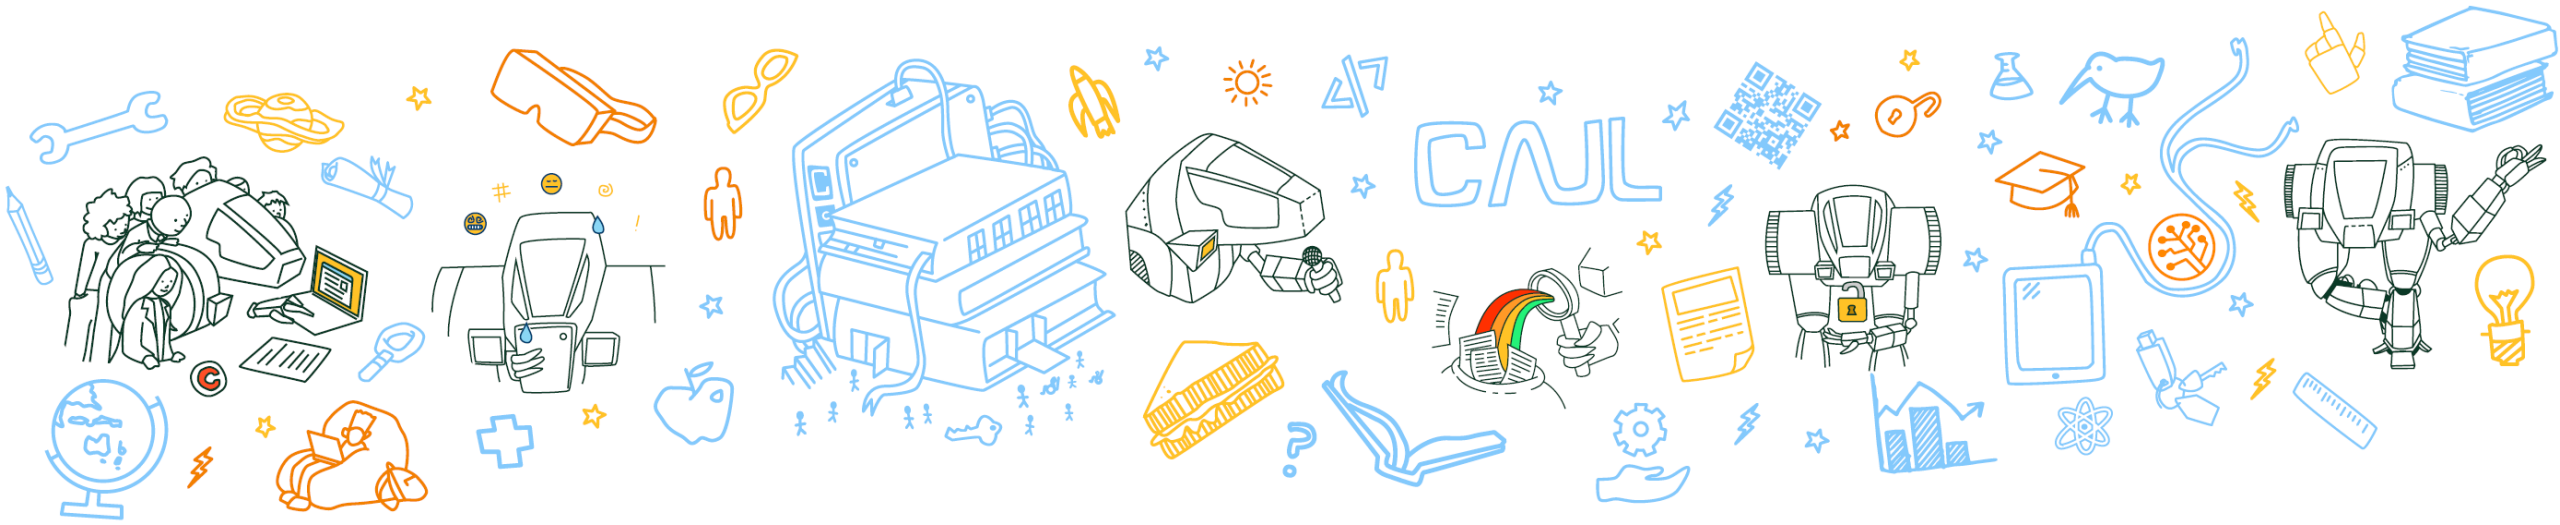
To transform how people experience knowledge – how it can be discovered, used and shared



Our commitment to members

- Position university libraries as **essential knowledge and information infrastructures** for teaching, learning and research in their institutions;
- Advance **open and equitable access** to knowledge, information and data;
- Be a **recognised authority** on the purpose, value and impact of university libraries in higher education and research;
- **Represent the interests** of its members to government, the community and other stakeholders;
- Promote members' views and values in **national and international discourse** on relevant issues and public policy developments
